About

Hi! My name is Alexey, and I am a motivated frontend developer committed to growth and achieving high results. I am constantly improving my skills and pay great attention to professional development.

I am passionate about creating interactive and modern user interfaces, transforming visual concepts into attractive and functional web applications.

I strive for quality and precision in my work and am always ready to take on the challenge of new projects and technologies.

I am ready to contribute to your team and bring fresh ideas to the development and design process.

Experience

Freelance — Frontend Developer

📅 Jul 2024 - Present

Next.js TypeScript Tailwind CSS shadcn/ui Zustand Firebase MySQL MongoDB Prisma

- Developed E-commerce platforms, dashboards, and custom web apps for clients, focusing on performance and user exp..
